ACREAGE ADJUSTMENT - OIL, GAS AND HYDROCARBON LEASE *JB*

ML 35316

An error in our acreage plats for the bed of the Great Salt Lake with respect to Section 10, R11N, R11W has been discovered. The plats indicate a land acreage of 527.10 acres and a lake bed acreage of 112.90 acres. The correct acreages are as follow:

Land: 567.10 acres
Lake Bed: 72.90 acres

Also, ML 35316 contains lands in SE $\frac{1}{4}$ Section 10, T11N, R11W, bed of the Great Salt Lake and lists an acreage of 112.90 acres for such lands. The correct acreage as to this subdivision is 64.80 acres. ML 35316, approved January 23, 1978, should thus contain a total acreage of only 2018.23 acres and rental should be decreased by \$48.00.

The division records should be amended to show true acreages on the official Great Salt Lake plats as indicated above, ie Section 10, T11N, R11W, bed of the Great Salt Lake: 72.90 acres; land surface: 567.10 acres. Upon recommendation of Mr. Blake, the Director approved the adjustment of acreage for ML 35316 in SE $\frac{1}{4}$, Section 10, T11N, R11W from 112.90 acres to 64.80 acres and that rentals on the same be decreased \$48.00 for a total lease acreage of 2018.23 acres. All State records should note this adjustment.

CORRECTION OF ACREAGE ON COAL MINERAL LEASE *JB*

ML 19359

It has been discovered that the above numbered lease contains an incorrect acreage figure with respect to lands described in the lease as follows:

ML 19359
5 M, Inc.

T42S, R3E, SLM
Section 2: A11

Kane Co.
640.00 acres

The correct acreage for these lands is 675.96. Upon recommendation of Mr. Blake, the Director approved the records of the Division and the lease be adjusted to reflect the correct acreage. The rental on this lease should be increased by \$18 per annum (50¢/A X 35.96 A.)
